

Mehdy Mokhtari

Full-Stack Developer

+98-910-420-1197 | mh.mokhtari7@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Final-year Computer Engineering student (GPA: **18.21**/20, konkoor: **68th**) with full-stack development experience in Java, Spring Boot, React, and REST APIs. Built projects including a Library Management API and Article Platform covering frontend, backend, database design, and integration. Proficient in Git, Docker, and software engineering best practices. Seeking a Junior Full-Stack Developer role to contribute to production software and grow as an engineer.

EDUCATION

University of Tehran <i>B.Sc. in Computer Engineering</i> • GPA: 18.2/20 • Relevant Coursework: Software Design, Software Engineering, Internet Engineering, Software Testing • Teaching Assistant for Advanced Programming and Basic Programming	Tehran, Iran 2022 – 2026
Atomic Energy High School (NODET) <i>Diploma in Mathematics & Physics</i> • GPA: 19.76/20 • Konkour: Ranked 68th nationwide • Ranked 1st in Computer Algorithms Olympiad (school-level)	Tehran, Iran 2019 – 2022

EXPERIENCE

ML Software Engineer <i>Farhikhtegan Elm o Sanaat Inc.</i> • Developed a Python-based proof-of-concept for DAS event detection and implemented a baseline machine learning model • Collaborated on the design, testing, and refinement of the proof-of-concept	Fall 2025 (4 Months) Tehran, Iran
--	--------------------------------------

PROJECTS

Library Management API <i>Java, Spring Boot, Maven, Hibernate, Docker, PostgreSQL, JUnit, CI/CD</i> GitHub • Built a production-grade REST API with Spring Boot 3 and Java 22, featuring layered architecture, DTO/entity mapping, and transaction management • Implemented end-to-end library operations including book management, borrowing system, dynamic search, and pagination with JPA Specifications • Containerized with Docker, orchestrated CI/CD pipeline with GitHub Actions, and utilized Flyway, Testcontainers, and JaCoCo for migrations, integration testing, and coverage	
Articles Platform <i>Spring Boot, React, REST API, PostgreSQL, JUnit, JWT</i> GitHub • Built a full-stack article management platform with authentication and CRUD functionality • Developed REST APIs using Spring Boot and connected a React frontend to a PostgreSQL database • Implemented JWT-based authentication for secure user access and authorization	
WealthWise Management System <i>Java, Maven, Docker, OOP</i> GitHub • Developed a Java-based financial management system using Maven for dependency management • Applied object-oriented design principles to ensure modular and maintainable architecture	
Restaurant Reservation Website <i>React, HTML, CSS</i> GitHub • Developed a responsive frontend web application for restaurant reservations	
SnapFood Clone <i>Spring Boot, React, REST API, MySQL</i> • in-progress	2026
Personal Portfolio Website <i>WordPress</i> • Built a personal portfolio website using WordPress to showcase projects and skills	2025

TECHNICAL SKILLS

Languages: Java, Python, SQL, JavaScript, HTML5, CSS3

Frameworks & Libraries: Spring Boot, React, JPA, JWT, REST APIs, Maven, Django

Database: PostgreSQL, MySQL, MongoDB

DevOps & Tools: Docker, Git, GitHub Actions (CI/CD), Maven, Linux, WordPress

Software Engineering: Scrum, Kanban, Microservices, RESTful Design, MVC Architecture

Testing: JUnit

RELEVANT COURSEWORK

Database (SQL): Quera

SQL Server: Daneshkar

Next.js: Daneshkar

Linux: Quera

Front-end Development: ACM UT

Docker: Daneshkar

Hooks & Design Patterns: Daneshkar

Network+: Faradars
